Messrs. Fulton & Price: The following are some Soap receipts, which may be saluable to the public at this time. One of the receipts

Oct. 15th, 1861.

TO MAKE FAMILY SOAP. Take six quarts of soft water, six pounds of bar soap, one quarter of a pound of sal soda, three teaspoonsful spirits turpertine, one and a half teaspoonsful hartshorn, one teaspoonfull of camphor, two teaspoonsfull of salt. (ut the soap up fine, boil the water and add all the ingredients, and boil 30 minutes, take off and pour into shallow vessels to cool and harden.

5 pounds bar soap, 4 pounds sal soda, 2 oz. berax, and 1 oz. hartshorn. Dissolve in 22 quarts of soft water and boil

TO MAKE JELLY SOAP After pouring out of the vessel the above soaps, pour

Take 10 lbs. potash well pulverized, 15 lbs. grease, and together un il dissolved. Then add the greate, stirring well; cold wa er, stirring it well each time, until the barrel is nearly full or mixed to the consistency of soit soap.

The Naval Expedition ... Against Charleston. The New York Tribune of last Thursday has the

It is understood that flag officer Goldsborough expects to have not less than forty ships of the Atlantic blockading fleet collected in the Roads within the next two weeks. At present we have six frigates, including Congress, the St. Lawrence, the Cumberland, beside the Dale, and a number of gun-boats and supply-ships, in all not less than 325 guns and 4.000 men. The Wabash is on the coast, and is expected to arrive. Of course the largest number of the expected first will be gun-boats, lately purchased and now fitting out in New would be better to spend the money in the purchase of York and Philadelphia. The destination of this unexampled squadron is of course one of the secrets almost past finding out, and not to be told when found out .-That formidable operations are to be undertaken on the Southern coast, there can be no doubt. Inasmuch as the late Atlantic blocksding district has been divided by creating the Southern Atlantic squadron, of which Capt. Dupont will be the flag officer, the conclusion is, that the ships which, according to report, will congregate here, will confine their operations this side of the dividing line, which will be the boundary of North and

It should not be supposed that all, or even a majority.) reported following preamble and resolution, not ty, of the squadron will be employed in special service. for it is doubtless the purpose of the Government to entorce a more perfect blockade of the whole coast, which 3d Congressional District, have assembled in Convention for experience has shown to be one of the most effective methods of crushing out the rebellion. Still, there are certain cities and ports, the moral effects of capturing which would be so great, that it is fair to be posamed that it will be undertaken. If there is any one place which the loyal sense of the land demands should be humbled and made to feel the hand of the Federal Government, it is Charleston. Its fall would be the fall of the chief pillow of the rebellion. The results would be commensurate with the cost, great as it might be. though it need by no means be so great as the rebels think or the Government has been in the habit of conceding. Supposing that the Government interda to concentrate its energies in an expedition by hand and sea against Charleston, according to the clearly of fixed expectation and wish of every loyal citizen, we may readily suppose that such a policy will be postpared no longer than considerations of the season shall dictate -But the probability of such an und riaking riss not alone on this presumption. There are indications in the "movements, doings, and so on," great and small, here and there, now and then, that point directly to so h a purpose. Grouped together, these indications to the eye of the careful observer es ablist more than a probability, if they are not even proof possive, of undertakings at an early day worthy of our Governments

> A report was brought by the York River train vesterday afternoon, that heavy firing was heard in the morning, by persons at West Point, and the inference was that a fight had comm uced on the Peninsula. We have heard that General Manshild lately sent a'm saege to General Magruder, giving him notice to evacuate h s defied him to come out and attempt to drive him away. Until we receive a confirmation of the report circulated vesterday, we shall besitate to believe that any engagement has yet taken place. According to the latest Federal advices, Mansaeid had gone to take command at Hatteras, and Wool had returned to Fortress Monroe. We learn from a private letter that on Sunday last an order from General Magrader was read in the several camps, announcing the receipt of positive information that the enemy had lately landed 70 rifled cannon and 500 artillery horses at Fortress Monroe; that he pla ed
